

DECAL ROLLER

Thank you for purchasing the CRB Decal Roller. The CRB Decal Roller provides accurate and solid pressure to smooth out any imperfections and aids in bonding the decal to the rod blank. Designed with an ergonomic handle and featuring three separate roller heads, this tool is a must for any dedicated rod builder. Do not just stop at decals, the rollers heads have a heat shrink coating offering the proper mix of grip and non-marking surface for use on threadwraps, abalone and even snakeskin applications.

LIST OF CONTENTS:

- A. Decal Roller Handle
- B. Concave Roller Head
- C. Convex Roller Head
- D. Straight Roller Head
- E. Allen Key

NOTE:

*Keep roller heads in a bag to prevent contaminants from sticking to roller heads that could be transferred to decals.

INSTRUCTIONS:

1. Your decal roller will come fully assembled to use right out of the package.

2. To change a roller head, use the provided allen key to remove the screw. This screw will completely come out of the tool with the roller head and washer. You can now slide the roller head off the screw and reinstall with a different roller head.
